

## 12 RESPONSIBLE CONSUMPTION AND PRODUCTION

### TARGETS

- Implement the 10-Year Framework of Programmes on Sustainable Consumption and Production Patterns.
- Achieve the sustainable management and efficient use of natural resources.
- Halve per capita global food waste at the retail and consumer levels and reduce food losses along production and supply chains, including post-harvest losses.
- Achieve the environmentally sound management of chemicals and all wastes throughout their life cycle.
- Substantially reduce waste generation through prevention, reduction, recycling and reuse.
- Encourage companies to adopt sustainable practices and to integrate sustainability information into their reporting cycle.
- Promote sustainable public procurement practices, in accordance with national policies and priorities.
- Ensure that people everywhere have the relevant information and awareness for sustainable development and lifestyles in harmony with nature.
- Support developing countries to strengthen their scientific and technological capacity to move towards more sustainable patterns of consumption and production.
- Develop and implement tools to monitor sustainable development impacts for sustainable tourism that creates jobs and promotes local culture and products.
- Rationalize inefficient fossil-fuel subsidies that encourage wasteful consumption by removing market distortions.
